Chapter 11**Letter Writing****Objective:** Writing to the protagonist**Activity**

Chapter 11 describes how other children try to turn Ender into an outcast. He is smart and successful, and others are envious of his accomplishments.

If you were in Ender's shoes, how would you act to minimize others' resentment? Would you try to win their affection and approval, or would you ignore them in the hopes that they would ignore you? Write a letter to Ender giving him your advice on how to act in such a tricky situation. Make your letter at least a page long, and give Ender at least two practical suggestions that might make his life at Battle School easier.
